

# The Different Types Of Weather

Color the image of each weather.

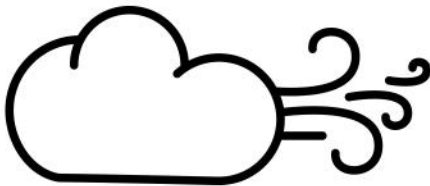

On a **rainy** day, there is water everywhere. You have to carry an umbrella or wear a raincoat to avoid getting wet. You cannot play outdoor games with your friends when the weather is rainy.

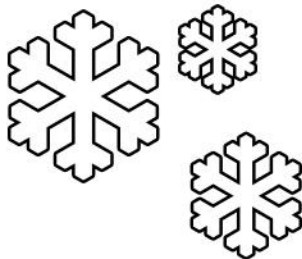

On a **sunny** day, the sun shines brightly and it is warm outside. You wear colorful dresses and play outdoor games with friends. You also eat ice cream and drink cold drinks.

On a **cloudy** day, the weather is dull and gloomy. There is little or no sunshine at all.

On a **windy** day, there is a strong breeze outside. The strong wind often causes leaves and flowers to scatter on the ground. You may have to wear a jacket or a sweater to protect yourself.

On a **snowy** day, there is snowfall everywhere. If there is a heavy snowfall, you have to stay protected at home. You have to wear heavy woollens to keep yourself warm. If the snowfall is light, you can go out and have fun, playing in the snow.

Match the name of the correct weather for each diagram

**Snowy**

**Windy**

**Sunny**

**Rainy**

**Cloudy**
