

# Color The Dots

Each problem has the number of circles corresponding to the first number. You have to color the number of circles that correspond to the second number in the equation. The number of uncolored circles will give you your answer. We have given one example. Do the others accordingly.

$9 - 1 = 8$

$6 - 3 =$

$3 - 2 =$

$8 - 5 =$

$6 - 2 =$

$9 - 2 =$

$7 - 4 =$

$5 - 4 =$

$10 - 2 =$

$5 - 1 =$

$9 - 4 =$

$9 - 6 =$

$6 - 4 =$

$5 - 3 =$

$8 - 2 =$

$4 - 1 =$

$8 - 2 =$

$7 - 1 =$

$5 - 2 =$

$5 - 4 =$

$5 - 2 =$

$10 - 7 =$

$8 - 1 =$

$6 - 1 =$

$6 - 2 =$

$7 - 3 =$

$8 - 2 =$

$10 - 10 =$

$10 - 3 =$

$10 - 9 =$

$7 - 4 =$
