What Are Descending Numbers?

Descending order is a mode of arrangement where the numbers are arranged from the largest number to the smallest number. "Descending" means "going down".

In the given table, arrange the numbers in descending order. We have solved the first one as an example.

12, 56, 32, 96	96, 56, 32, 12
1, 9, 8, 3	
99 , 98, 55,32	
65, 33, 58, 66	
88, 56, 32, 78	
98, 20, 54, 32	
21, 54, 77, 36	
87, 69, 23, 54	
89, 79, 69, 59	
85, 32, 69, 74
