

Practicing Rounding Numbers

Fill the blanks in the given table with correct answers by rounding the number to the nearest accuracy of the underlined digit. A few of them have been solved as examples.

$\underline{4}355 = 4000$	$3\underline{4}67$	$2\underline{8}71$
$5\underline{6}78$	$4\underline{3}12$	$5\underline{8}12$
$6\underline{7}54$	$7\underline{6}54$	$7\underline{8}32$
$8\underline{7}87$	$8\underline{9}75$	$6\underline{5}87$
$5\underline{6}89$	$2\underline{1}41 = 2100$	$7\underline{9}43$
$2\underline{1}1$	$7\underline{8}0$	$3\underline{5}98$
$8\underline{5}69$	$3\underline{5}78$	$2\underline{4}98$
$7\underline{8}6$	$6\underline{5}78$	$3\underline{5}87$
$3\underline{1}47$	$4\underline{3}4$	$6\underline{5}4 = 650$
$5\underline{2}4$	$3\underline{2}17$	$1\underline{2}35$
