

Learning The Table Of Number 12

Write the correct answers in the following table.

$12 \times 1 = \underline{12}$

$12 \times 2 = \underline{\hspace{2cm}}$

$12 \times 3 = \underline{\hspace{2cm}}$

$12 \times 4 = \underline{\hspace{2cm}}$

$12 \times 5 = \underline{\hspace{2cm}}$

$12 \times 6 = \underline{\hspace{2cm}}$

$12 \times 7 = \underline{\hspace{2cm}}$

$12 \times 8 = \underline{\hspace{2cm}}$

$12 \times 9 = \underline{\hspace{2cm}}$

$12 \times 10 = \underline{\hspace{2cm}}$

$12 \times 11 = \underline{\hspace{2cm}}$

$12 \times 12 = \underline{\hspace{2cm}}$

Multiply 12 with the numbers given in the middle circle and write the correct answer in the space provided in the outer circle. One question is solved as an example for you.

A circular multiplication chart with a central circle containing "12 X". The inner ring contains the numbers 9, 4, 5, 10, 8, 12, 3, and 11. The outer ring contains a blank space and the example answer "48".
