

The Metric System Of Measuring Volume

Convert the given units of volume from liters to milliliters.

3 liters = _____ milliliters

9.5 liters = _____ milliliters

4.5 liters = _____ milliliters

2 liters = _____ milliliters

7.5 liters = _____ milliliters

8 liters = _____ milliliters

8.5 liters = _____ milliliters

12 liters = _____ milliliters

11 liters = _____ milliliters

8.5 liters = _____ milliliters

6 liters = _____ milliliters

5 liters = _____ milliliters

Convert the given units of volume from milliliters to liters.

1500 milliliters = _____ liters

2500 milliliters = _____ liters

3000 milliliters = _____ liters

4000 milliliters = _____ liters

7800 milliliters = _____ liters

8500 milliliters = _____ liters

10000 milliliters = _____ liters

9000 milliliters = _____ liters

3700 milliliters = _____ liters

2300 milliliters = _____ liters

6100 milliliters = _____ liters

4200 milliliters = _____ liters
