Roller Skate Wheels

Types Of

Indoor

Usually, these wheels are harder and help roll easily on smooth surfaces.

Outdoor

Softer than indoor wheels and with good shock absorption, these wheels help ride on uneven terrains.

Jam

Suitable for gymnasts and dancers, these wheels help them ease their agile movements.

Speed skate

They allow you to roll fast with less effort. It is also suitable for jam skating.

Roller derby

Suitable for beginners, they prevent toppling and are considered basic wheels.

These wheels have a narrow width for easy maneuvering against the floor.
