

HOW TO USE K-CUPS IN A Coffee Machine?

STEP 1

Plug in and turn on your coffee maker.

STEP 2

Fill the coffee machine with water and heat it to the appropriate temperature.

STEP 3

Place your coffee mug on the drip tray.

STEP 4

Give your K-cup a good shake to mix its contents.

STEP 5

Insert the K-cup into the coffee machine and close the lid.

STEP 6

Discard the K-cups when done with brewing.
