# Tips For Using A
# CONCEALER

Always use a concealer that matches your skin tone to avoid gray tones.

Use the concealer before the foundation for a more natural look.

Use a color corrector before the concealer only if the dark spots are severe.

Apply the concealer only on areas with uneven skin tone.

Apply concealer in an inverted triangular shape under the eyes to cover dark circles.

Avoid applying concealer up to the lower lash line to prevent creasing.

Allow the concealer to dry for 30 seconds before blending for improved coverage.

Blend the concealer with your ring finger or sponge for a smoother finish.

Use the concealer to correct lipstick and eyeliner mistakes for precise touch-ups.
