

# Skills A Child Can Develop Playing With A Doll House

## Social skills

Acting out real-life situations via a doll house can prepare a child to face the real world.

## Fine motor skills

Placing and removing the tiny decorative items from a doll house can improve children's motor skills.

## Narrative skills

Telling imaginary stories about the doll house improves children's vocabulary.

## Life skills

Caring for a doll house can teach children to regulate their emotions and reactions.

## Creative skills

Children's creativity gets enhanced by painting and decorating a doll house.
