

## Features To Look For In a Dishwasher Detergent

Choose detergent powder for hard stains, gels for ease of use, and pods for a mess-free experience.

Read the ingredients label for the presence of any potential allergens.

Get a fragrance-free detergent if you don't like fragrances or have asthma.

Opt for a powerful detergent to avoid pre-washing or double washing.

Get a detergent with a higher molecular density than your water to prevent hard water residue on your dishes.

Reduce your carbon footprint by using a biodegradable dishwashing detergent.
