

Things To Remember When Buying A Visor

Make sure the visor perfectly fits your head or has adjustable strings or straps.

Choose a visor's material as per use. Cotton is suited for summer days, while polyester visors are great for golfing events.

Look for the one with good breathability and a quick-drying feature.

Prefer mesh-designed visors for good ventilation and air circulation.

Choose a shiny design or those with reflective strips for visibility if wearing them at night.

Choose colors or patterns that are easy to wash and maintain.
