

POSITIVES AND NEGATIVES OF SCORPIO AND SAGITTARIUS COMPATIBILITY

POSITIVES

Sagittarius and Scorpio love trying new things and connect seamlessly.

The relationship never gets boring, as they match each other's energy and passion.

The immense physical connection builds strong mutual attraction.

NEGATIVES

Scorpio is a fixed sign and might refuse to adjust or adapt to any situation in life, frustrating Sagittarius.

Sagittarius' bad temper and Scorpio's indomitable nature make their arguments fiery and nasty.

Scorpios' desire for control may not go well with fiercely independent Sagittarius and may lead to rifts in the relationship.
