## Bible Hangman

This is one of the easiest Bible games to play, where a player writes clues on a board and asks others to fill in with letters. If the player misses a letter or writes the wrong one, other players can draw a hangman.

## Bible Charades

This is similar to dumb charades, where Bible characters are cut out and handed to groups to act while the other groups have to guess the answer.

## Bible Paintings

For this game, you need knowledge and preparation. One team has to draw the given topic while the other has to guess the painting.

## Bible Bingo

Make cards of different Biblical characters and get them printed. The bowl will contain jumbled cards, and the winner is the first player to get a line going up, down, or diagonal.
