

Creating The Best Father-Son Memories

Travel together

Pick a destination and choose your mode of travel for the best experience. You can also choose an adventurous weekend or week by going hiking, camping, horseback riding, or fishing.

Watch live events

Pack your favorite snacks and enjoy a live show together. It can be your favorite sport, band, or car show.

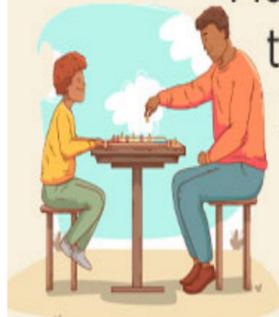

Have some quiet time

Do nothing and appreciate each other's presence in the quiet. You can go stargazing or a stroll in the park to share a peaceful moment.

Have a battle of wits

Play a game of chess or do something that requires thinking. You can make it a tradition on days when you both are free and want to spend some time together.

Feed animals

Visit places with stray animals or a shelter home and feed them. If you're the father, this is a good lesson about animal love for your son.
