

Buying Guide For A *Cleaning Caddy*

Purpose

Opt for a caddy based on the purpose. For example, the one designed for an after-party clean-up should have bottle holders.

Material

Caddies may be made of cloth, vinyl, plastic, stainless steel, and wood. Select one based on your intended use, such as plastic and steel ones are suitable for bathroom use.

Size

The caddy size should fulfill your need and be appropriate for the available space.

Number of pockets

The ones with more pockets can help organize more items.

Handles and drain Base

A comfortable grip ensures easy carrying, while a good drainage system prevents water buildup.

Color

Though it does not add to the functionality, you may choose colors based on the location where you intend to keep it.
