

Things To Consider In A **Toy** For An *Eight-Month-Old*

Look for toys that can enhance their fine and gross motor skills and encourage imagination.

Consider portability and choose lightweight toys that are easy to carry.

Ensure the toy is non-toxic and safe, without small parts that could cause choking.

Select toys based on your child's preferences to keep them engaged.

Choose toys that are easy to hold and navigate for the baby.

Look for toys with various features to hold your child's attention.
