

## Tips To Make Sibling Tag Questions Fun

Keep a water gun ready and spray at the one you think fits the answer to the question.

Let your parents answer the questions based on their opinion by throwing a paper ball at you or your sibling.

Narrow the questions down to the bad habit ones, and whoever fits the answers the most has to carry out all the chores of the other sibling.

Record the questions or have someone ask them while you keep your eyes closed and point to the one who is the answer.

Write your answers down, and then ask your friends and family if they agree. Whoever wins gets to throw the loser into the pool.
