

# Caring For Your

## Baby With Scabies

### At Home

Dress them in loose-fitting clothes to lessen friction and irritation.

Wash your baby's clothing separately to prevent the spread.

Dry the clothes in direct sunlight to destroy the eggs and scabies mites.

Keep your little one's nails short.

Disinfect the baby's bedding and change them every three days.

Dress them in loose-fitting clothes to lessen friction and irritation.

Keep the house clean and properly disinfect it.
