

WAYS TO Make Your Child Enjoy Indoors

Listening game

Let the children see the objects you place on the table and have them turn around. They need to guess the object based on the sound you make with it.

Pitching pennies

The children need to take a few steps away from the table containing the empty cup and throw pennies into it. Whoever gets the most pennies in the cup wins.

Pen and pencil games

If they don't know yet, introduce them to the classic and all-time favorites games of Tic-tac-toe, Name, place, animal, thing, and Pictionary.

Dominoes

Arrange the dominoes with your children in any shape you like and have them flick the first one to start a chain reaction while you record the fantastic moment.

Marshmallow tinker toys

Let them use their imagination and creative skills to create snowmen, soldiers, cars, or anything of their choice using marshmallows and pretzels.
