

Step I:

Prep your skin by cleaning your face thoroughly.

Step 2:

Apply a moisturizer on the damp skin.

Step 3:

Wait till the moisturizer gets well-absorbed into the skin.

Step 4:

Apply a skin-type-appropriate primer to get a smooth finish.

Step 5:

Choose a creamy foundation that matches your skin tone.

Step 6:

Apply chunky dots of the creamy foundation, one each on the cheeks, chin, and forehead.

Step 7:

Blend the foundation using a makeup sponge or stippling brush.

Step 8:

Apply loose or setting powder to bestow a matte finish.
