

The Right Way To Apply

A Detangler Spray

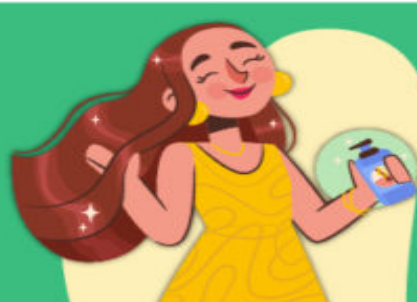

Shake the detangler spray before use to get a fine mist of the product

Apply the detangling solution on slightly damp hair for better absorption

Spray the detangler on the length of the hair to reduce frizz and knots

Apply a coat of detangler on the comb and run it through the hair for even application

Section the hair into parts to make the detangler coat the whole length of the hair

Avoid spraying the detangler on the scalp to keep it from getting oily

Spray the detangler from a distance to keep the product from accumulating

Point the detangler spray away from the nose, eyes, and mouth to avoid irritation
