

Tips For Applying An Eyebrow Serum

Patch test the serum before first-time use to check for allergies.

Always thoroughly remove any makeup before applying the eyebrow serum.

Applying the serum on an oil-free, cleansed face aids in better absorption.

Remove the applicator from the bottle at an angle to eliminate excess serum.

Always apply a thin layer of serum on the entire eyebrow area.

Use upward strokes to apply the serum as close to the roots as possible.

If required, apply makeup only after the serum is fully absorbed.

Apply the serum twice a day only if recommended by the manufacturer.

Consistently apply the serum for the period recommended by the manufacturer.

Do not apply the serum if the eyebrow area is bruised or sensitive.
