

## Tips For Applying *Color Correctors* *Efficiently*

Prep your face with a primer before applying the color correctors.

Use color correctors before the concealer and the foundation.

Apply a thin layer of correctors to prevent them from showing under the foundation.

Mix the concealer with a bit of color corrector for a more natural look.

Use peach correctors for light skin tones.

Opt for orange correctors for darker skin tones.

Apply the color corrector with a small, flat makeup brush.

Blend out large portions of the corrector to prevent patchiness.

Use translucent powder to set the color corrector, preventing it from budging when applying concealer.

Apply foundation with a sponge to press the product, preventing the corrector from budging.
