

STEPS TO APPLY LIQUID EYELINER

Prep your eyelid by applying a moisturizer or primer.

01

Steady your hand by resting your little finger on your cheek.

02

Start by making small lines or dots with the eyeliner tip.

03

Move the liner's tip from the outer to the inner corner of the eye.

04

Use feather strokes to create a wing or tail at the edge of your eye.

05

Start with thin strokes and thicken the lines if required.
