

Tips To Clean And Maintain Cooling Blankets

Read and adhere to the manufacturer's care instructions.

Put cooling blankets in mesh bags when washing them in the machine.

Consider handwashing weighted cooling blankets for a thorough cleanse.

Always use cold water for washing cooling blankets.

Never use bleach to clean and wash cooling blankets.

Refrain from dry-cleaning cooling blankets.

Avoid tumble drying them to maintain their fabric integrity.

Always air-dry them thoroughly to prevent mold and mildew.

Avoid exposing weighted cooling blankets to direct sources of heat.

Cover weighted cooling blankets with a duvet cover for better protection.
