

# Tips To Clean & Maintain *Softball Cleats*

Always dust off the dirt from the cleats after each game for easy removal.

Use a putty knife or popsicle sticks to clean the cleats with precision.

Remove and wash the insole and laces separately.

Use soapy water, a cloth, and a toothbrush to clean the cleats.

Never submerge or soak the cleats, especially leather ones, in water.

Avoid using a blow dryer or clothes dryer to dry the cleats to prevent warping.

Always air dry the cleats away from direct sunlight after washing them.

Insert shoe trees in the cleats while storing them to maintain their shape.
