

Points To Consider When Selecting The Right Baby Lotion

Select a baby lotion as per the baby's skin type.

Ensure the lotion is free from harsh and toxic chemicals.

Opt for a fragrance-free lotion to prevent skin irritation.

Choose a lotion with a thicker consistency for long-lasting hydration.

Consider a pump bottle to prevent contaminating the lotion.

Select a pH-neutral lotion for a gentler effect.

Avoid food-based lotions to avoid the risks of allergies.
