

# Features To Look For When Buying

## Slippers

Look for a slipper made from soft material to avoid calluses.

Get a slipper with a sturdy sole for better balance.

Opt for a slipper with arch support if you are flat-footed.

Browse for waterproof slippers if you intend to use the slippers in the washroom or during the rainy season.

Look for slippers with toe supports for a better fit.

Choose slippers that are durable and easy to wash.

Browse for slippers that are compatible with the kind of floors you have.

Look for a snug slipper size and consider good traction to prevent slips.
