

# STEPS INVOLVED IN CLEANING A GRID-STYLE GEL SEAT Cushion

## Step 1

Check the care instructions provided by the manufacturer.

## Step 2

Vacuum-clean the cushion to remove the loose dust and debris.

## Step 3

Remove and clean the seat cover in the washing machine. Spot-clean with soapy water if it is not machine-washable.

## Step 4

Mix warm water and mild detergent in a tub.

## Step 5

Hand-wash the grid-style gel cushion with the soapy solution.

## Step 6

Air-dry the cushion thoroughly before putting on the cover.
