

# Tips To Follow For Cleaning Glass Food Containers

Read the cleaning and care instructions provided by the manufacturer.

Use non-abrasive sponges to prevent scratches.

Use mild detergents to prevent the glass from deteriorating.

Gently scrub baking soda and water paste to get rid of stubborn stains.

After washing, wipe the containers with a soft cloth to prevent water stains.

Avoid using paper towels to dry the containers to prevent scratches.

If using a dishwasher, place the bulkiest containers on the bottom rack and the thin containers on the top rack

After the washing cycle, air-dry the containers before storing them.
