

# Steps For Cleaning Oven From Inside

01

Make sure the oven is unplugged and cooled down before starting the cleaning process.

02

Remove the oven racks and brush off any residues using a cloth or a small cleaning brush.

03

Prepare a homemade cleaning paste using baking soda and warm water.

04

Cover the parts of the oven you wish to clean with the baking soda paste and leave it for an hour or two.

05

Scrub inside using a damp cloth or scrubber, and scrape out any stains using a spatula.

06

Spray vinegar solution to wash off lingering smells or other stains.

07

Wipe off the oven again using a clean, dry towel or cloth.

08

Clean the oven racks using the same process before putting them back.
