

Tips To Develop Your **Child's Motor Skills** With Fun Toys

Offer your baby toys that require hand-eye coordination, such as balls, bats, and blocks, to practice and improve their gross motor skills.

Provide toys that require small muscles of hands, fingers, toes, wrists, and feet, such as puzzles and shape sorters, to develop fine motor skills.

Give a push toy or ride-on toy to your toddler so that they can learn to balance and strengthen their body muscles.

Offer your child books and activity cubes for fun activities to learn about shapes, numbers, colors, and the alphabet.

Let your child bang a drum with a drumstick to strengthen their arm muscles and develop motor skills.

Spend quality time with your child and encourage them to explore and learn through toys.
