

Points To Consider

When Getting

Smart Glasses

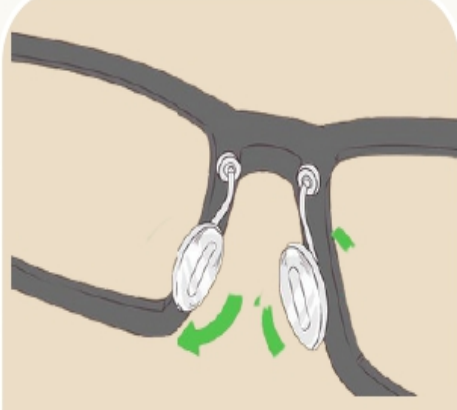

Opt for smart glasses with long battery life for hassle-free use.

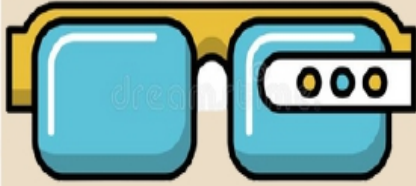

Get a lightweight smart glass to keep them from digging into the skin.

Select a smart glass with glare-free lenses to avoid vision distortion.

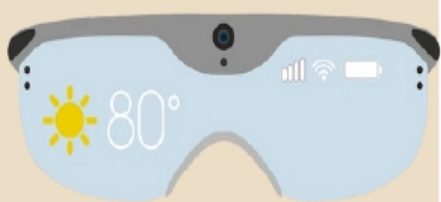

Opt for smart glasses with nose pads and UV protection.

Choose smart glasses with built-in lights if you are an avid reader.

Opt for smart glasses that can play music if you are a musicophile.

Browse for smart glasses with voice control for hands-free use.
