

Tips For Keeping LAUNDRY BASKETS Clean And Odor-Free

Place a baking soda pouch at the bottom of the basket to prevent odors.

Air-dry wet, soiled clothes before placing them in the laundry basket.

Treat any stains with a stain remover before placing the clothes in the basket.

Seal clothes worn by a sick family member in a plastic bag before tossing them in the basket.

Place heavily soiled clothes directly in the washing machine instead of the basket.

Do not store soiled laundry in the basket for days at a stretch.

Use pine oil or chlorine bleach to disinfect the basket in case of mold.

Wash the laundry basket regularly to eliminate germ and odor buildup.
