

# STEPS INVOLVED IN SETTING UP A BLUETOOTH FM TRANSMITTER IN A CAR

## STEP

01

Locate the car charger or cigarette lighter in the car's dashboard.

02

Insert the Bluetooth FM transmitter in the charger and switch it on.

03

Set the car radio's frequency to a blank station with zero interference.

04

Match the FM transmitter's frequency to the car radio's.

05

Pair the FM transmitter with your smartphone via Bluetooth.

06

Select and play your favorite music or audio file on the phone.
