

Steps To Follow When Using A

Jewelry Candle

Step 1

Trim the wick to a quarter of an inch before lighting the candle to prevent sooting.

Step 2

Burn the candle till the jewelry foil is visible.

Step 3

Blow out the candle and let the wax cool down briefly.

Step 4

Extricate the tin foil using tweezers.

Step 5

Unwrap the foil over a piece of paper to reduce the wax mess.

Step 6

Enter the code found on the jewelry on the brand website to learn its value.
