

# Steps For Using

## *A Texture Spray*

### On Dry Hair

#### Step 1

Prep your hair with a heat protectant if you plan to use a curling wand.

#### Step 2

Style your hair with a curling wand to create the perfect beach wave look. Alternatively, braid your hair for a while to create a wavy look naturally.

#### Step 3

Grab the texture spray, shake it well, and hold it ten inches from your head.

#### Step 4

Working in sections, spritz the spray all over the hair using circular motions.

#### Step 5

Lift large sections of the hair and spritz near the roots to add more volume.

#### Step 6

Gently massage or scrunch your hair to enhance and lock in the effects of the spray.
