

Tips For Using A Tower Fan

Read the installation and usage instructions before using the fan.

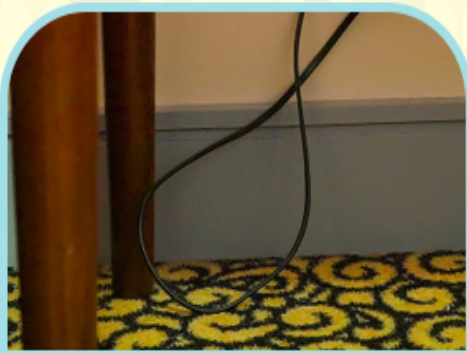

Reserve the use of a tower fan for home and indoor usage only.

Ensure to place the fan on even ground and away from wet areas.

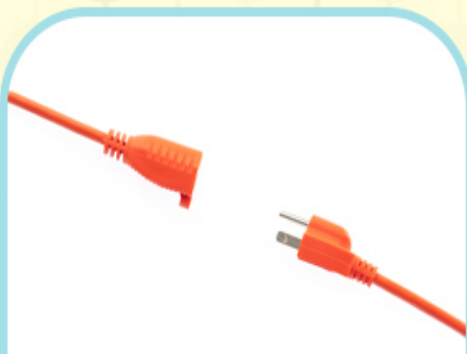

Avoid using the fan near flammable liquids such as paints and varnishes.

Do not place the fan's cord under the carpet to prevent tripping and falling.

Refrain from mounting a tower fan on the wall.

Avoid using the fan with the aid of an extension cord.

Periodically clean the fan to protect it from malfunctions associated with dust.

Avoid using chemical agents for cleaning the tower fan.

Cover the fan and store it in a cool and dry place for extended periods of storage.
