

Tips For Safe Usage Of **Batteries For** Battery-Operated Toys

Only use the recommended batteries with the specific toy.

Keep the batteries away from metal objects and other flammable areas.

Avoid using batteries that are swollen or have dents.

Remove the batteries if the toy or device is not in use.

Keep children from changing the batteries by themselves.

Store the batteries at room temperature or in a cool and dark place.

Discard the batteries if they are discolored or emit an odor.

Avoid overcharging the batteries.

Avoid repairing the batteries at home.

Follow the manufacturer's instructions when disposing of batteries.
