

— Tips For Using — ELECTRIC TRAIN SETS

Read the user's manual before playing with the electric train set.

Refrain from setting up the train in moist and wet spaces.

Do not leave toddlers unattended when the train set is in use.

Ensure to keep the ventilation slots empty and clean to prevent overheating.

Give the train set hour-long breaks in between to ensure optimum performance.

Periodically check the train set for damages to prevent potential hazards.

Avoid disassembling and servicing internal parts on your own.

Lubricate the linkages (if permissible) to avoid squeaks and friction-induced wear.

Regularly wipe the tracks with a soft, lint-free cloth for jerk-free functioning.

Clean the smoke residue often with a cotton swab or soft cloth.
