

# Tips For Using A Hair Dryer Brush EFFICIENTLY

- Read and adhere to the manufacturer's guidelines before using the brush
- Prep your hair by towel-drying wet hair and detangling them with a comb.
- Do not use the hair dryer brush while bathing or in the shower.

- Avoid using an extension cord or voltage converter to use the device.
- Refrain from using the brush outdoors.
- Choose low settings to dry and style thin or fine hair.

- Use high settings to cater to coarse or thick hair.
- Select the cool setting to lock the hairstyle in place more effectively.
- Ensure not to block the vents during use to prevent overheating.
- Allow the brush to cool down fully before storing it.
