

Tips For Using Hair Rollers For *Flawless Results*

Use a protective hair spray before using heat-based rollers to reduce hair damage.

Dampen your hair before using non-heating hair rollers for long-lasting curls.

Divide your hair into sections and curl each section one at a time.

For broader waves, divide the hair into large sections.

Keep the rollers on for as long as the manufacturer specifies.

Once the curls are set, remove the rollers and allow them to cool.

Free the curls by running your fingers through them for a dramatic look.

Use hair spray to set the hair for long-lasting results and keep it frizz-free.
