

# Tips For Washing Baby Clothes Without Damaging Their Softness

Sort and wash the baby's laundry separately from the rest of the family's.

Follow the washing instructions given on the label.

Use non-perfumed, non-enzyme mild detergents or specifically formatted detergents for babies.

Hand wash the soiled clothes and use warm water to disinfect them.

Pre-treat any stains with stain remover or detergent, and use a soft-bristled brush to scrub gently.

Thoroughly rinse the clothing with water to wash off any detergent residue.

If washing clothes in a machine, follow the instruction label keenly.

Do not use fabric softener or bleach on clothes.
