

Hacks To Maintain Your White Shoes

You may use white nail polish to cover the scratches.

A few drops of vinegar can help clean stubborn stains.

Brush the greasy stain using a color-free shampoo.

Apply toothpaste on the sneaker, let it stay for some time, and rinse.

If you plan to use detergent, ensure that you mix the water and detergent in a 1:5 ratio.

Always hand-wash your white shoe, don't machine wash.

Use a magic eraser to keep the shoes stain-free.

Wash the shoelaces with warm water.
