

How To Take Care Of Your Watch?

Avoid or minimize exposing your watch to heat and sunlight, and keep it away from chemicals

Invest in service, repair, and battery changes to ensure proper upkeep.

Clean it with a soft cloth daily to avoid scratches or dust buildup.

Have a dedicated storage box for your watch when it is not in use.

Avoid exposure to magnetic objects to avoid damage to your watch's mechanism.

Keep your watch safe from water exposure unless it is extremely water-resistant and is made to be worn during rain or for watersports.
