

TYPES OF CAR SEAT COVERS

FABRIC

It doesn't make you cold or hot in different weather conditions, but it catches dirt easily. Cleaning these covers may be a bit hard.

PU LEATHER

It is a type of synthetic leather. It resists water spills and is easy to maintain.

PURE LEATHER

It provides an elegant look to your car, but the leather is made from animal skin.

LOOSE SHEET

Often used when traveling with pets on short trips. These are water- and stain-resistant, allowing wiping and cleaning.
