

Tips To Prevent and Manage **MOLLUSCUM CONTAGIOSUM**

Do not share personal items, including clothing or towels.

Wash hands frequently and properly.

Avoid intercourse if you have bumps in the genital area.

Avoid scratching or picking at growths.

Cover the infected area with clothing, bandage, or medical tape.

Do not shave skin with molluscum bumps.

Avoid swimming unless growths are covered by watertight bandages.

Follow treatment recommendations from a healthcare provider.
