

Keep Your *Baby Entertained* Without Using A Phone

Use rattle toys or other toys that make sounds to distract them.

Take them to the porch or the backyard and let them enjoy their surroundings.

Sing a song or speak gibberish to entertain them with your expressions and voice.

Babies are easily amazed by cats and dogs, so let your pet entertain them for a while.

Do a goofy dance or random gestures to keep their eyes fixated on you.

Let your spouse or close ones keep your baby entertained while you do your chores.
