

# Safety Tips For Using Casserole Dishes

Always use oven mittens to take the casserole dish out of the microwave.

Wash the casserole dish first with warm water to store hot food and with cold water to store cold food.

Avoid placing the casserole near the stove or any other heat source, as it may cause it to break.

Clean the casserole dish with mild soap and warm water to remove the oil stains.

Avoid placing a cold casserole dish into a hot oven, as it may cause the dish to crack.

Allow the casserole to cool before handling.
